

Are you ready to take on the challenge and become the best bartender in "Tapper"?

"Tapper" for the Atari XL/XE was released in 1985 by US Gold and is considered a classic arcade game on this platform. The game demands quick reflexes, sharp observation, and strategic thinking to keep the bar in order and satisfy the customers.

The game features bonus rounds after each level, where you need to select an unshaken can to earn extra points. Once you complete all four levels, the game restarts with an increased difficulty level, providing long-lasting entertainment and challenge.

Additionally, you must watch out for the "Soda Bandit," who occasionally shakes cans, adding an element of randomness and making your job even more challenging.

In the game "Tapper" for the Atari XL/XE, you take on the role of a bartender who must serve an endless line of thirsty customers across four unique bars: Old West Saloon, Jock Bar, Punk Rock Bar, and Space Bar. Each of these bars has its own distinct atmosphere and challenges, making the gameplay increasingly varied and engaging. Your task is to quickly serve drinks before the customers lose their patience and collect the empty mugs they send back your way.
